KG 208 series VHF / UHF FM Mobile Radio

A new world order

As times change, so do the needs of mobile radio users. Since the radio user has become more sophisticated, so must the radio, features that yesterday were after market options are now demanded as standard Product, as well as new frequency allocations in many countries simply cannot be ignored. Introducing the KG208 mobile radio — a radio that will set a new standard in the world order.

An Extensive Array of Standard Features Available in Software

Main Features

Programmable Channel Spacing

Wide/Narrow per channel, both 5 tone and DTMF.DTMF. up to 200 channels (100 with alpha channel name feature)

Wide Frequency Coverage

Models are available for 66-88 MHz VHF, 136-300 MHz VHF, and 300-520 MHz UHF – more frequencies than any other manufacturer.*

*See specifications for band splits.

Alphanumeric Display

Large backlit characters tell you the radio's status at a glance. No flashing lights or confusing tones.

Emergency Mode

You can send a silent alarm in case of trouble

Password Feature

On power up, the radio can require you to enter your unique password number to prevent unauthorized listeners.

Voice Inversion

For message privacy, voice inversion makes your conversation unintelligible to unauthorized listeners.

Keyboard Lock Feature

You can "lock" your keyboard settings to prevent tampering.

Kill Mode

The KG208 can be completely disabled or enabled from the central base station.

PC Programmable

No need for specialized equipment to define the radio's personality. A cloning cable allows quick field personalization.

More Features available without additional cost

- Wide non tuning bandwidth
- Choice of transmitter power
- 5-tone selcall
- DTMF encode/decode
- Scan with 4 priority levels
- Automatic number identification (ANI)
- Self diagnostics
- Up to 200 channels (100 with alpha channel name feature
- Time out timer
- Busy channel lockout
- Activity timer

Make The KG208 Work For You With The Right Options Many options and accessories are available to tailor the KG208 to your operating requirements.

16 keys

Power supply unit

Desk top microphone

8 keys

External speaker

Remote control unit

Programming cable
